Profile Summary

Enthusiastic and detail-oriented engineering student with a strong foundation in **Data Structures and Algorithms (DSA)** and good **problem-solving skills**. Proficient in logic building and developing efficient solutions, complemented by hands-on experience in **web development**, **Data engineering** also familiar with Agile methodology and team-based software development cycles.

Education

Chandigarh University , BE in Computer Science	Aug 2022 – Jun 2026
• CGPA: 8.3	
Gyan Bharti , 10+2 Science	Apr 2019 – Mar 2021
• Percentage: 91.6	
DAV Public School , 10th	Mar 2018 – Mar 2019
• Percentage: 92	

Projects

MoneyMate: Smart Expense Tracker	2025
- Designed a secure financial management platform with a focus on data integrity and user authentication using Node.js. - Developed an interactive dashboard using Tailwind CSS and React.js for seamless income and expenditure tracking. - Tools Used: HTML, CSS, JS, React.js, Tailwind CSS, Node.js	
YouTube Comments Analyzer	2025
- Engineered a web application using Python and Flask that interfaces with the YouTube Data API to ingest large-scale comment datasets. - Integrated Natural Language Processing (NLP) for sentiment analysis to categorize user feedback, providing actionable data visualizations. - Tools Used: HTML, CSS, Flask, JS, Python, MongoDB	
Product Recommendation System	2024
- Developed a dynamic web-based recommendation system that suggests electronic devices based on user preferences and specifications. Utilized a combination of machine learning algorithms and user-input filters to provide personalized product recommendations. - Tools Used: HTML, React, CSS, JS, Python	

Skills

Languages: C++, C, Java, Python, SQL, JavaScript, Node.js, Flask

Technologies: Git, Microsoft SQL Server, MongoDB, Microsoft Office

Interpersonal: Effective Communication, Teamwork, Adaptability, Presentation

Achievements

Solved 200+ DSA problems and 130+ on LeetCode, strengthening data structures and algorithmic problem-solving skills.

Achieved a Codeforces rating of 1033, consistently participating in competitive programming contests.

Successfully cleared the SSB screening round for the Indian Armed Forces.

Authored a research paper on Component-Based Architecture highlighting its impact on modern web development.
